

Fly Agaric,
Amanita muscaria

Apricot Jelly,
Guepinia helvelloides

A close-up photograph of a Meadow Mushroom (Agaricus campestris) growing on a bed of dry leaves and twigs. The mushroom has a light-colored, slightly flattened cap with a distinct radial pattern of ridges and grooves. The gills are numerous, closely spaced, and light-colored. The stem is thick and pale. The background is a soft-focus green, suggesting a grassy field.

Meadow Mushroom,
Agaricus campestris

Turkey Tails,
Trametes versicolor

Shrimp Russula,
Russula sp.

Red-belted Conk,
Fomitopsis pinicola

Porcini,
Boletus sp.

Chicken of the Woods,
Laetiporus conifericola

Honey Mushroom,
Armillaria mellea

Inky Caps,
Coprinopsis atramentaria

Morel Mushroom,
Morchella sp.

Slippery Jack,
Suillus sp.

Hedgehog Mushroom,
Hydnum repandum

Artist's Conk,
Ganoderma applanatum

Pacific Golden Chanterel
Cantharellus cibarius

Oyster Mushroom,
Pleurotus ostreatus

Scrambled Egg Slime Mold,
Fuligo septica

Witch's Butter,
Tremella mesenterica

Common Puffballs,
Lycoperdon perlatum
